

Green Body Fluid & Glass Spill Kit Eco-Friendly

PREPARE 1

1 Empty all kit contents on a flat surface near spill.

2 Place shoe covers over your shoes.

3 Put on gown using head and thumb loops.

4 Affix mask with eye shield, then hair cover. Finally, put on gloves and pull them over gown sleeves.

5 Remove white backing from adhesive strip and attach to dry floor near edge of spill.

6 Remove cap and seal from Purell disinfectant and attach trigger spray.

CLEAN AREA 2

1 Saturate spill and surrounding area with the enclosed bottle of Purell® disinfectant. Wait 30 seconds.

2 Sprinkle absorbent powder over the area starting from the outer edge to the center. Discard bottle and wait 30 seconds.

3 Use scraper to push all waste into the dustpan box. Discard scraper in trash bag.

4 Thoroughly respray affected area with disinfectant. Wait 30 seconds.

5 Use Mop Pad #1 to push any remaining waste into the dustpan box. Discard. Use handles to lift from floor and dispose in trash bag.

6 If any uneven hard surfaces have spill splatter, pour disinfectant on the enclosed towels and clean.

FINISH 3

1 Finally, use ALL remaining disinfectant and mop pad #2 to spread disinfectant over entire spill site. Discard bottle and let area air dry.

2 First, remove shoe covers. Next, remove mask and hair cover. Then, grasp front of gown with both hands.

3 Pull both hands forward, away from the body, to break open the gown neck loop and back ties.

4 Use the inside sleeves of the gown to remove gloves without contacting the contaminated side.

5 Put protective wear, along with all remaining kit items, in first bag. Use drawstring to tie shut.

6 Place first bag inside second bag. Use drawstring to tie shut and immediately dispose. (6a) Use the PURELL® Hand Sanitizer Single, then thoroughly wash hands for 20 seconds.
